

Chief of Engineers' Holiday Message

by Lt. Gen. Robert Flowers

The holidays are a time for remembering others, and for giving to others.

This year, I want us to remember that there are many in our Corps of Engineers family who are serving in harm's way in Afghanistan and Iraq. They are giving an expensive gift...willingly sacrificing their holiday with their families so that others who lived for decades under tyrannical rule might have a future of safety and freedom.

I'm enormously proud of them. They volunteered for an important cause, and they are doing excellent work under difficult circumstances.

Of course, Afghanistan and Iraq are not the only places where our Corps team members will spend the holidays. Our people are at work in 91 countries worldwide, and many of them will also be separated from their loved ones during the holidays.

Please take a few moments during these holidays to remember those in the Corps family who are serving overseas. If you are acquainted with some of them, please mail them a card or send them an e-mail letting them know that you're thinking about them, and that their service is appreciated.

I have also served overseas during the holidays under difficult conditions, and you can trust me on this...in the situations that our people face in Afghanistan and Iraq and elsewhere, simple gifts like those will be treasured.

For all of us, this has been a busy year. As in years past, the Corps of Engineers has taken part in events that made headlines, and made a difference.

When the space shuttle *Columbia* burned up

during re-entry, Corps people took part in the search in Texas and other states to find debris that helped piece together what happened to the spacecraft.

During Supertyphoon Pongsona on Guam, Hurricane Isabel on the East Coast, and the wildfires in California, Corps emergency teams were on the scene to fight the disaster, and to clean up afterwards.

Whether it is helping clear landmines in Afghanistan, or advising the Iraqi Ministry of Water Resources in re-routing water to preserve the Marsh Arabs' way of life, or providing new facilities for the U.S. Military Academy at West Point, this year Corps people have continued making a difference in America, and in the world.

The holidays are also a time to look to the future, and the Corps of Engineers' future is bright. The plans for USACE 2012 have been released and are now being implemented. People throughout the Corps are learning the basics of the Project Management Business Process, cornerstone of the Corps' new way of doing business. And Corps people are learning the concepts of competitive sourcing, which will be our part in the President's Management Agenda.

These actions and others will give the Corps of Engineers the best possible gift...the ability to improve our service to the American people.

As always, I encourage all of you to take time off during this holiday season. Relax and have fun, and especially make time to enjoy your families.

And my family and I wish you all a safe and joyous holiday season, and a happy, prosperous New Year.

Essayons!

Festival of Lights!

John Martin Reservoir participated this year in the Las Animas Christmas Parade of Lights on Saturday, December 6th. The project's new 19' Boston Whaler was bedecked with lights by the crew and had the honor of carrying Santa Claus during the parade. Electrician Bob Boley, maintenance worker J.C. Chavarria and park ranger Karen Downey acted as Santa's helpers and handed out water safety coloring books and Frisbees with safety messages to kids along the parade route. Santa was safely delivered to the Courthouse where he received the children to hear their wishes and all went away with a candy cane and a promise of Santa soon to visit. (Photo and article submitted by Karen Downey, park ranger at John Martin Dam.)
